DETAILED ACTION

Election/Restrictions

Newly submitted claims 40 - 113 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims as amended are no longer within the scope of the claims as originally filed. At least the following was not originally presented: dynamically determining the optimum part of an available bandwidth, taking new carrier measurements each instance, updating the list of candidate carriers periodically in order to adequately reflect which part of the available bandwidth should be used, reserved recovery slots, Bluetooth, listening to beacons, master and slave units and synchronization

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 40 - 113 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
